

DETAIL: Metal Roof - Ribbed

GENERAL DETAILS – RIDGE CAP – ROOF COATING RESTORATION

This detail drawing is intended to show the generally recommended procedure for dealing with the condition shown. Actual field conditions may vary. When such conditions vary slightly from the drawing, the intent and industry best practices are to be used. Any question, contact Aldo Products Company, Inc., Technical Department.

1. Brush apply 50 wet mils of the ALDOSEAL product of choice 6" from the ridge cap over onto the existing metal roof panel.
2. All voids or openings are to be filled completely.
3. The ALDOSEAL product is to be applied and feathered to create positive drainage of any water flow.
